Subject: FW: Final WVa writeup?

Ex. 4 - CBI

Please share with others. The Zip file includes the studies used as the basis for the CDC screening level analysis.

The MCHM file includes the 1 ppm screening level analysis.

John,

Thanks so much for your continued help with the WV situation. CDC released the final version of the MCHM screening level after our many discussions with them. It is posted on their website at the following URL:

<http://emergency.cdc.gov/chemical/MCHM/westvirginia2014/pdf/MCHM-Summary-Report.pdf>

The CDC final write up for the PPH screening level is at:

<http://emergency.cdc.gov/chemical/MCHM/westvirginia2014/pdf/DiPPH-PPH-calculation.pdf>

Chris

Subject: Final WVa writeup?

Hi Chris,

We're continuing to provide support to EPA's region 3 response team, and in going back through the emails I'm not sure I can find the final writeup in which a reference level was derived (of 1 ppm as I recall). We're trying to figure out a way to provide an interim value for inhalation to help as they plan site cleanup.

Thanks,

John
